

PRESS RELEASE

UCAMCO appoint Pluritec France as agents for France.

UCAMCO (formerly Barco ETS) announce the appointment of Pluritec France SARL to handle their sales and marketing activities in France.

Pluritec will handle the full range of UCAMCO's products, the SilverWriter and Calibr8tor series of laser photoplotters as well as the UCAM family of front-end software, the Integr8tor PCB sales solution and the recently introduced SmartPlate, innovative software for reliable plating. They will work closely with UCAMCO's existing sales engineer in France, Denis Morin, who will provide technical sales and application support.

Pluritec France have more than 20 years experience in the French PCB market distributing and supporting PCB production and test equipment from Pluritec Italy and from other leading manufacturers across the world.

Karel Tavernier, Managing Director of UCAMCO, explains: "It is important for our customers that we have a strong local presence in each market area. Pluritec are well-established and well-respected as the leading supplier of PCB manufacturing equipment in France. Their range of complementary products make them our ideal choice of partner for the French market."

Guillaume Souliac, Director of Pluritec France, adds: "UCAMCO's range of plotters and front-end engineering software fits well into our portfolio of advanced drilling, digital printing, AOI and bare-board test equipment. UCAMCO's products are already well-known and trusted in France. We look forward to working with UCAMCO and with Denis Morin to develop synergies across our product range to keep our customers at the cutting-edge of PCB technology in the global market."

The agreement covers sales and marketing. Hardware and software support will continue to be handled directly from UCAMCO's headquarters in Ghent.
